Thanks to Facebook's bungled IPO, Mark Zuckerberg's net worth tanked this year.

According to [Forbes](#), Zuckerberg is now worth \$9.4 billion, down from \$17.5 billion last year.

Last year Zuckerberg was the fourth richest person in tech, and this year he's down to ninth.

As we were assembling this year's list it was incredible to

Automatic Data Processing, Inc. steps up its presence in the world of dealership websites this week by acquiring BZ Results, a digital marketing and consulting company.

The acquisition is the latest in a series of announcements that shows **ADP** is intent on putting some teeth into its dealership Web initiatives.

Details of the deal have not been announced, but **ADP** officials confirm that BZ President Sean Wolfington will remain with the company as a part of ADP's digital marketing management team.
